rbon Footprint Report

Report period

st January 2025 to 31st December 2025

AS EMISSION INVENTORY & CLIMATE REPORT

Campus

onTrack Sustainability Assessment & Climate Accreditation Cell

cial Year 2024–2025 (FY 2025)

JST-GHG-2026-791

nents

of the Carbon Footprint Assessment Report for Institutional Campus has been
ble support, guidance, and cooperation of several individuals and the institute.
atitude to the Principal, Management, and Leadership of Institutional Campus for
, encouragement, and wholehearted support in facilitating this study. Their
g sustainability and environmental stewardship within the institution has been
ful execution of this project.
felt appreciation to the faculty members and sustainability cell officers for their
ing, verifying, and compiling the activity data required for greenhouse gas (GHG)
d carbon footprint estimation.
ssment has been carried out by CarbonTrack Sustainability Assessment & Climate
ablish a baseline greenhouse gas inventory and promote sustainable campus
th internationally recognized carbon accounting principles.

Calculation and Results

reenhouse Gas Emission Inventory (Financial Year 2024–2025 (FY 2025))

	Activity Quantity	Value Kg CO_2e / year	Share %
um Gas (LPG)	426 kg LPG/year	1,272.89	11.52%
lectricity	12,000 kWh/year	9,504	86.04%
(CAR - PETROL)	1 units, 10 km avg daily	269.35	2.44%
TAL GROSS INVENTORY		**11,046.24**	**100%**

tion 13.3: Net Carbon Footprint Balance

tional Footprint = Total Emissions – Total Offsets

l Footprint = 11046.24 kg CO_2e – 4605.00 kg CO_2e

= 6,441.24 kg CO_2e/year

(≈ 6.44 t CO_2e/year)

ummary

nism	Value Kg CO_2e per year	Total %
ar Power Generation	1980.00	43.00%
t & Tree Sequestration	2625.00	57.00%
ste Recycling Offset	0.00	0.00%
OFFSETS	**4605.00**	**100%**
